# Prahlad Kumar

## Competitive Programmer | Software Developer(beginner)

I am an inquisitive and enthusiastic coder, developer, and problem solver. Love to explore my own capabilities, therefore, always ready to take up challenges like participating in Hackathons and Contests. I am an "OPTIMIST" by nature and radiate the same aura. I'm also hard working and committed to my work.

## PERSONAL PROJECTS

### Covid-19 Stats Tracker(Web App) (10/2020 - 10/2020)
- Realtime Covid-19 stats tracker web app. I have used rapid API to fetch the data. Used handlebars, NodeJS, Express, CSS and Chart.js for graph plotting.
- Live-Demo : https://corona-web-clone.herokuapp.com/.

### Chat Room (09/2020 - 09/2020)
- A chatting web app which can be used to create different room and users can also see how many active users are there in the specific room. I have used socket.io for broadcasting messages and sending them to a specific room.
- Live Demo : https://prahlad-node-chat-app.herokuapp.com/.

### Weather App (07/2020 - 08/2020)
- Developed a weather web app with the help of HTML, CSS, JAVASCRIPT, NodeJs, and Express. I have also used Weather Stack API to forecast the data. It can forecast the weather of any location.
- LIve Demo : https://prahlad-weather-application.herokuapp.com/.
